

REWOPOL® SB L 203

Anionic surfactant that is gentle to the skin

- Good foaming properties
- Creating a hard crystalline dry residue
- Good tolerance of water hardness

Chemical and physical properties (not part of specifications)

Appearance	turbid liquid, tends to precipitate
Color	bright yellow
Active content	~ 39 %

Properties

REWOPOL® SB L 203 is a disodium lauramido MEA-sulfosuccinate.

- gentle to the skin
- good foaming properties
- creating a hard crystalline residue
- good calcium hardness stability
- tend to hydrolyze in highly acidic or alkaline conditions
- can be applied in a pH range between pH 5 and pH 9
- compatible with anionic, amphoteric, and non-ionic surfactants
- not compatible with cationic surfactants

Application

REWOPOL® SB L 203 is used for mild detergents and cleansing agents. Because of their property of creating a crystalline residue they are especially suited for carpet shampoos.

- upholstery cleaners
- carpet shampoos
- shampoos

Packaging

800 kg pallet (4 drums 200 kg)
1 000 kg container
Bulk

Storage and processing recommendation

The product can be stored in sealed original package at temperatures between 20 °C and 30 °C for at least 6 months after date of delivery. At temperatures below 0 °C the product could be damaged.

During prolonged storage the products tend to get turbid. Gentle heating and homogenizing will return the products to a clear state.

Hazardous goods classification

Information concerning

- classification and labelling according to regulations for transport and for dangerous substances
- protective measures for storage and handling
- measures in case of accidents and fires
- toxicity and ecological effects

is given in our material safety data sheets.

Guideline Formulations

Upholstery cleaner	
Water	88.9 %
Sodium gluconate	2.0 %
REWOPOL® SB L 203	5.0 %
Sodium lauryl sulfate, 28 %	3.0 %
AMINOXID WS 35	1.0 %
Preservative	0.1 %
Preparation: Blend ingredients in the given sequence while stirring.	
Appearance: Clear liquid. For use as trigger spray.	

Carpet shampoo of approx. 10 %	
Water	69.9 %
REWOPOL® SB L 203	12.0 %
Sodium lauryl sulfate, 28 %	15.0 %
TEGO® Betain L 7	3.0 %
Preservative	0.1 %
Preparation: Blend ingredients in the given sequence while stirring.	
Application: Manual: dilute with water at a rate of 1 : 4 to 1 : 5. Automated: dilute with water at a rate of ~ 1 : 20.
